

DISTRICT COURT, CLARK COUNTY, NEVADA
IN RE: ASPEN SERIES BB EVAPORATOR COIL LITIGATION
CASE No. A-14-710463-D; DEPT. No. XVI

NOTICE OF CLASS ACTION SETTLEMENT

TO: All owners of homes located in Nevada that are believed to have air conditioning systems that contain or contained Aspen Series BB evaporator coil units designed, manufactured and/or sold by Aspen ("Class Members").

ATTENTION, the Court presiding over the action identified above ("Class Action") granted formal approval of a settlement of all class claims against Aspen on November 01, 2017. Thereafter, the Court granted eligible Class Members 18 months from January 17, 2018 to claim the settlement benefits, which include an initial cash payment of approximately \$220 per Aspen Series BB unit in each class home.

Simply because you received this Notice does not mean you are a Class Member. To make a claim, Class Members must own a home meeting the class definition and submit a claim form for each such home. Please visit www.SeriesBBClass.com to file a claim online or call the Claims Administrator, Total Class Solutions, LLC ("TCS"), to receive a claim form. TCS must verify that each claimant meets the class definition before paying a claim. This verification will likely require that you permit an inspection of your home and/or provide adequate documentation.

Failing to file a claim and allow TCS to complete the verification process within the allotted time may result in you forfeiting all of the settlement benefits currently available to you. If any settlement funds remain after TCS makes all initial settlement payments, the qualifying Class Members will be entitled to an additional cash payment in the future.

For more information, please call the Claims Administrator (TCS) at 1-855-684-6180.
